

## Laminated seat covers with comfort foam

### Key advantages

Lantal seat covers laminated with comfort foam have the following compelling advantages:

- **Optimized seating comfort through excellent upholstery effect**
- **Weight savings of 20% versus seat covers with conventional graphite foam**
- **Slightly longer product service life versus non-laminated seat covers**
- **Improved looks due to low material expansion and better shape retention**

### Details

#### Lamination

The graphite foam can be applied to smooth or perforated leather.

#### Dimensions

Precut parts based on drawings.

#### Ready-to-install seat covers

Lantal can produce cut and sewn laminated seat covers on the basis of your dimensional data or drawings.

### Specifications

#### Weight of lamination:

360 g/m<sup>2</sup> (±10%)

#### Thickness of lamination:

6 – 7 mm

#### Flammability, smoke/toxicity

Lantal seat covers are permanently flame-resistant in accordance with FAR 25.853, 12 sec. vertical, and meet the Airbus and Boeing specifications for smoke and toxicity if cleaned according to Lantal cleaning recommendations.

### Cleaning

Please consult the Lantal cleaning recommendations that specifically apply to laminated textile seat covers.
