

Laminated seat covers with graphite foam 03

Key advantages

Lantal seat covers laminated with graphite foam 03 have the following compelling advantages:

- **Optimized seating comfort through excellent upholstery effect**
- **Slightly longer product service life versus non-laminated seat covers**
- **Laminated textile seat covers can be machine-cleaned**
- **Improved looks due to low material expansion and better shape retention**

Details

Lamination

The graphite foam 03 can be applied to textiles (WO/PA, WO/VI, WO) and smooth or perforated leather as well as TEC-Leather.

Dimensions

Precut parts based on drawings.

Ready-to-install seat covers

Lantal can produce cut and sewn laminated seat covers on the basis of your dimensional data or drawings.

Specifications

Weight of lamination:

420 g/m² (±10%)

Thickness of lamination:

6 – 7 mm

Flammability, smoke/toxicity

Lantal seat covers are permanently flame-resistant in accordance with FAR 25.853, 12 sec. vertical, and meet the Airbus and Boeing specifications for smoke and toxicity if cleaned according to Lantal cleaning recommendations.

Cleaning

Please consult the Lantal cleaning recommendations that specifically apply to laminated textile seat covers.

Lantal laminated wool blend seat covers can be dry-cleaned at least 20 times or more before they cease to be flame-retardant if cleaned according to Lantal cleaning recommendations.
