

Laminated seat covers with spacer fabric

Key advantages

Lantal seat covers laminated with spacer fabric have the following compelling advantages:

- **Optimized seating comfort/climate due to air circulation**
- **Weight savings of 20% versus seat covers with conventional graphite foam**
- **Long service life due to improved resilience**
- **No back lining needed for cut/sew and processing**
- **Ageing resistant**

Details

Lamination

The spacer fabric can be applied to Wool blend textiles

Dimensions

Precut parts based on drawings.

Ready-to-install seat covers

Lantal can produce cut and sewn laminated seat covers on the basis of your dimensional data or drawings.

Specifications

Weight of spacer fabric

335 g/m² ±10%

Thickness of spacer fabric

3-4 mm

Flammability, smoke/toxicity

Lantal seat covers are permanently flame-resistant in accordance with FAR 25.853, 12 sec. vertical, and meet the Airbus and Boeing specifications for smoke and toxicity if cleaned according to Lantal cleaning recommendations.

Cleaning
