REACH

Dear Madam, dear Sir:

This is to acknowledge the receipt of your letter asking us to confirm that our products are REACH-compliant. We are happy to respond with the following deliberations.

Lantal is a user and not a manufacturer of chemicals. Pursuant to the REACH definition, our products are so-called articles. We use only REACH-compliant chemicals in our manufacturing and conversion processes.

>> This is your assurance that our products also comply with REACH specifications.

Articles supplied by Lantal do not contain any substances of very high concern (SVHC) according to the candidate list. They are harmful neither to the environment nor to human health.

>> We therefore affirm that our products can be used without any concerns.

As a member of the Swiss Textile Federation (TVS), we are constantly updated with respect to REACH issues. Attached, you will find the TVS information bulletin that outlines how Switzerland assures the EU protection level.

>> This confirms that you can continue to rely on Swiss quality.

We also regularly liaise with our chemicals suppliers.

>> This is your assurance that our products are continually adjusted to REACH requirements.

In brief, we can confirm that Lantal products are REACH-compliant.

We hope that this information is useful for you. Please do not hesitate to contact us at any time if you have any questions. Feel free to get in touch with your Lantal representative or, if you have questions regarding technical issues, with Andreas Christen (e-mail: andreas.christen@lantal.ch; telephone: +41 62 916 73 21).

Sincerely yours,

Thomas Burst
