

## Ready-to-install products

### Pleated curtains

#### Key advantages

Lantal ready-made, pleated curtains have the following compelling advantages:

- **Cost-effective all-in-one solution and single-source convenience - you save time and money**
- **A long lifetime and a long lasting perfect look due to excellent craftsmanship and permanent pleats**
- **Pleats always remain in the same good shape**
- **They need less space when tied back**
- **Easy to install, delivered ready to fit**
- **The physical delivery can be accompanied by an EASA Form One**
- **Compliance with all airworthiness requirements**

#### Pleated curtains

Lantal pleated curtains are an attractive eye-catcher in your cabin. Features and options:

- Made of 100% polyester Trevira CS (Comfort and Safety) because of shape retention by heat

set pleating. The pleating always remains in the same good shape, even after several cleaning cycles

- With permanent pleats for a long-lasting perfect look and easy maintenance
- Pleat size: 7 cm, pleat pitch 9 cm, other sizes and pitches available
- A special make-up with double fabric and inlayer as an option to absorb light and noise.
- Three types of snap fasteners are available: Fixed snap fastener, movable snap fastener and adjustable snap fastener (please see additional product information sheet)
- Lantal Trevira CS curtains can be washed or dry cleaned. The curtain has to be folded in its pleats and placed into a net bag for cleaning. Please ask for the Pleated curtain manual for more information on maintenance and installation.

#### Specifications

##### Airworthiness requirements

Lantal is certified to EASA 21 Subpart G, and is thus authorized to provide an EASA Form One with every delivery.

##### Design Organization Approval (DOA)

The status as Design Organization (DOA) allows Lantal to develop, test, and certify modifications to aircraft cabin components. The scope of the approval as stipulated by EASA encompasses ready-to-install parts such as ready-made curtains.

#### Starting a project

You can simply send us approved data, a drawing or a sample of a current item and Lantal will supply a professionally sewn product ready for installation. Contact Lantal and discuss your needs with us. Rest assured that we can address your requirements.
