

Thank you very much for your interest in Lantal and our company's genuine leather products. Leather has been gaining more and more significance as a soft furnishing application element in aircraft cabins. In response to this trend, Lantal has renewed its portfolio of leather qualities. The selection of leather grades available from Lantal covers the entire spectrum of customer expectations with respect to durability requirements, color preferences, and value-adding design options for compliance with corporate identity guidelines.

The enhanced Lantal range streamlines the selection process with respect to distinctiveness of surface texture and consists of four qualities: Calando, Classic, Crescendo, and Combrío. The surface structures of the four new leather grades do not exhibit any significant deviations from those of the previous collection (Extra, Economy, Mercato KT).

The new leather grades do not restrict interchangeability, provided the old leather is replaced with the new grade as recommended by Lantal. Lantal can issue a "Statement of Interchangeability" which explicitly affirms that the product is equivalent. The following pages show the new leather grades (scale 1:1) along with Lantal's interchangeability recommendations.

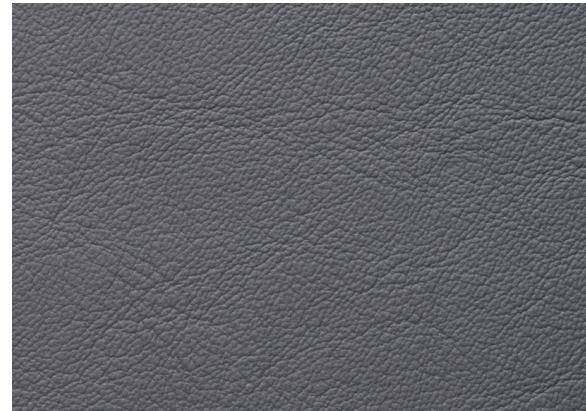

We hope that this fact sheet will serve you well. If you have any questions or requests, please do not hesitate to contact the Lantal team at any time.

**None****Calando**  
**Article 9556**

Weight ( $\pm 10\%$ tolerance)	1200 g/m <sup>2</sup> , 35.4 oz/sq yd
Thickness ( $\pm 0.1$ mm tolerance)	1.4 mm, 0.055 in
Average hide size (approx.)	5–5.5 m <sup>2</sup> , 53–59 sq ft

Calando is Lantál's fourth new leather grade. It is not comparable with any of the leathers in the older portfolio.

Calando has an inimitably sensual surface texture that radiates warmth and adds a touch of luxury to any cabin interior. The uniform structure is amplified

with embossing, accenting the leather with a supple crimped grain. It is a voluminous leather grade with a silky, pleasantly soft and natural hand for coziness and comfort
