

Curtain fabrics

Polyamide meshed

Key advantages

Lantal's TSA-approved meshed fabric curtains are made of 100% polyamide and have the following compelling advantages:

- **60% light transmission and compliance with Transportation Safety Administration (TSA) standards**
- **Class separation and sense of privacy**
- **Knitware with a smooth touch**
- **Matt/gloss effect for appealing looks depending in incident light**
- **Washable**
- **Compliance with all airworthiness requirements**

Properties

Composition

100% polyamide (nylon).

Mesh structure and colors

The fabric has a fine mesh structure. Article 8603 is available in two neutral shades off the shelf.

Pleating

Lantal knitted fabric curtains are suitable for pleating. However, to retain the degree of transparency, Lantal recommends leaving the curtain unpleated.

Weight

The conditioned weight is approx. 170 g/m², 5 oz/sy, tolerance ±5%.

Width

Approx. 127 cm, 50 in.

Specifications

Flammability, smoke/toxicity

Our fabrics are permanently flame-resistant in accordance with FAR/CS 25.853, 12 sec. vertical, and meet the Airbus and Boeing specifications for smoke and toxicity if cleaned according to Lantal cleaning recommendations.

Cleaning

Washable at max. 30°C (78°F) or dry cleaning as per Lantal cleaning recommendations.

Service lifetime

The specific service lifetime depends largely on the airline's interior philosophy (colors, quality), routing (long-haul, short-haul), geographical routes, load factors and cleaning attitudes.
