

Genuine leather Classic

Key advantages

Lantal's Classic genuine leather grade has the following compelling advantages:

- **Classic reflects the elegance of quintessential leather. It is compact, pleasantly full, and agreeably supple**
- **The beauty and true naturalness of genuine leather is an impressive design element in aircraft interiors**
- **Its highly adaptable to your livery and corporate identity**
- **Oil-resistant and water-repellent and light-fast**
- **Easy to clean and care for, retains its original beauty for a very long time.**
- **Compliance with all airworthiness requirements**

Properties

Classic (Article 9361)

Thanks to its fine, smooth surface, Lantal's Classic grade has a very stylish and elegant look and feel. With its suppleness and soft glow, it emphasizes the magic of sleekness.

Colors

Eight leather colors complement the seat cover fabrics, curtains, and carpets from the Essentials collection to coordinate with any cabin interior concept. Additionally, Lantal offers a selection of 48 charming standard colors in neutral, warm and cool shades.

Design options

Lantal leathers can also be perforated or embossed with logos and patterns or other custom design elements and design accents.

Additional finish

For improved seating comfort and enhanced looks, Lantal can also back the leather with an activated carbon nonwoven or a lightweight foam.

Specifications

Weight ($\pm 10\%$ tolerance)

800 g/m², 23.6 oz/sq.yd.

Thickness (± 0.1 mm tolerance)

1.1 mm, 0.043 in.

Average hide size (approx.)

5 – 5.5 m², 53 – 59 sq.ft.

Flammability, smoke/toxicity

Permanently flame-resistant in accordance with FAR 25.853, 12 sec. vertical, meets the Airbus specifications for smoke and toxicity if cleaned according to Lantal cleaning recommendations.

Cleaning

Thanks to the judiciously applied finish, Lantal genuine leathers only need occasional cleaning with soapy water, followed by wiping down with clear water. No cleaning agents must be used on genuine leather upholstery. The natural beauty of the leather is preserved even after years of use.

Environmental statement

Lantal genuine leathers are processed according to Cleantech principles, comply with the German Consumer Goods Act, and conform with EU Regulation 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH).

Service lifetime

Approx. 6 years

The specific service lifetime depends largely on the airline's interior philosophy (colors, quality), routing (short-haul or charter flights), geographical routes, load factors and cleaning attitudes.
