

## Curtain fabrics

### Polyester standard

#### Key advantages

Lantal curtain fabrics made of 100% flame-resistant polyester have the following compelling advantages:

- **Fast availability from off-white inventory**
- **Matt/gloss effect produces a slightly three-dimensional look**
- **Pre-coordinated or customized colors**
- **Washable**
- **Easy to pleat, permanent pleats**
- **Flame-retardant**
- **Compliance with all airworthiness requirements**

#### Properties

##### Composition

100% flame-resistant polyester. Reversible. Also suitable for producing antimacassars, easy to embroider and print.

##### Designs and colors

The Lantal product line covers a selection of 8 pre-defined designs and one plain weave.

All articles are kept in stock in their natural white state for piece-dyeing. Dyeing in one of 21 standard colors (see sample card of design 5039) or in any signature color specified by the customer.

Design 5039 is available in 8 colors off the shelf.

##### Pleating

Heat-set pleating assures shape retention. The pleats always remain in the same good shape, even after several cleaning cycles.

#### Weight

The conditioned weight varies from 265 to 355 g/m<sup>2</sup>, 7.8 to 10.5 oz/sy, tolerance ±5%.

#### Width

133 - 139 cm, 52 - 55 in

#### Specifications

##### Flammability, smoke/toxicity

Lantal fabrics are permanently flame-resistant in accordance with FAR/CS 25.853, 12 sec. vertical, and meet the Airbus and Boeing specifications for smoke and toxicity if cleaned according to Lantal cleaning recommendations.

#### Cleaning

Washable at max. 40°C or dry cleaning as per Lantal cleaning recommendations.

#### Service lifetime

The specific service lifetime depends largely on the airline's interior philosophy (colors, quality), routing (long-haul, short-haul), geographical routes, load factors and cleaning attitudes.
