

# Six easy steps from the vision to the cabin.

With a stringent, highly cost-effective process management approach and its status as a fully qualified Design Organization (DOA), Lantal will leverage all of its resources to make your soft interior project a complete success. Lantal’s fast-track solutions cover the entire spectrum from the individual part to the complete signature ambiance. Count on Lantal to cover every single detail from the kick-off to doorstep delivery, including the official EASA Form 1, as per your logistics preferences.

**Project management**  
Lantal plans, schedules, organizes, and monitors your project with all milestones to assure successful implementation.

# Let Lantal serve you with a complete range of ready-to-install parts for your signature interior.

Whenever you need an all-in-one solution for a complete cabin with an uncompromising focus on passenger well-being or an intelligently designed ready-to-install part for your soft interior, let Lantal take over. Lantal manages the entire process from development, engineering, and certification to on-time delivery. You benefit from a single point of contact, streamlined administration, lower costs, and less complexity from start to finish.

Thanks to Lantal’s status as both a Design Organization (DOA) and a Production Organization (POA), we are qualified to develop new parts and service concepts. Lantal can also certify minor cabin interior modifications that involve the issuance of new part numbers, so your ideas and visions are not subject to any limitations. These and many more assets make Lantal the ideal partner for your future cabin interior projects. We’re ready when you are.
