

Carpets for trains Meltreno Brush

Key features

Lantal Meltreno Brush carpets for critical areas have the following compelling advantages:

- **Dirt and moisture are trapped to protect adjacent floorcoverings.**
- **Dirt not entrained to seating areas reduces maintenance outlay**
- **Cut-pile quality with a dense, multicolored mottled surface**
- **Hardly noticeable wear even in heavy-duty traffic areas**
- **Very good light fastness for long-lasting good looks**
- **Modest investment compared with passenger appeal and functionality**

Applications

Lantal Meltreno Brush carpets are especially suitable for

- Boarding areas
- Buffer zones
- Stairways
- Luggage stow zones near doors

Specifications

Composition

Lantal Meltreno Brush carpets are made of 100% polyamide.

The material consists of three yarn types that in combination fulfill a double function: The carpet effectively takes up coarse dirt and wetness, and a special chafing yarn thoroughly cleans shoes soles and wheels.

Weight	3400 g/m ² , tolerance ±10%
Pile/total height	7 mm / 10 mm
Width	185 cm
Minimum quantity	25 linear meters

Colors and designs

4 shades from classic to modern that readily coordinate with other interior elements.

Safety and standards

Lantal Meltreno Brush carpets are permanently flame-retardant and fulfill the fire standards and requirements of DIN 5510-2, NF F 16-101, UN-ECE-R118.02 and FMVSS 302.

Pursuant to EN 45545-2, R10, HL 1-3 is fulfilled. This result is based on preliminary tests. The original floor construction must be tested to verify fire behavior pursuant to EN 45545-2.

Abrasion resistance

Lantal Meltreno Brush carpets comply with all relevant wear and abrasion standards.

Light fastness

Lantal Meltreno Brush carpets are highly light-fast thanks to an optimized dyeing process and the use of man-made fibers.

Cleaning

Daily vacuum cleaning and periodic cleaning with a spray extraction unit at up to 40°C.

Service life

Lantal products have particularly long service lives and still look like new even after extended periods of use.
